

**REMARKS/ARGUMENTS**

Applicant has canceled claim 19, leaving claim 21 pending in this application. Claim 21 has been amended to correct a typographical error, and to clarify that only one outlet may be present. Further, new claim 31 was added. This claims both a 110 V and a 220 V outlet.

The current claim 21 was rejected under 35 U.S.C. 102(e) base on the Wilson et al. U.S. 6,482,080 reference. The Wilson reference lists Arnold C. Wilson, David Everhart and J. T. Badgett as inventors. The current application lists Arnold C. Wilson, David Everhart and Thomas Badgett as inventors. These are the same three individuals as listed in the '080 reference, just in a different order. Accordingly, a rejection under 35 U.S.C. §102(e) is inappropriate and applicants would request withdrawal of this rejection and allowance of the pending claim 21.

Applicants are enclosing herewith a chart showing the pending and issued cases assigned to IdleAire Technologies Corporation to make certain that the Examiner has a complete understanding of the history of this case. If any additional information is required by the Examiner, please contact the undersigned.

Thank you for your assistance in this matter.

Respectfully submitted,

WOOD, HERRON & EVANS, L.L.P.
